

Three exclusive advantages

Indoor and outdoor protection

●●● VIDEOFIED ANYWHERE.

Removing doubt instantaneous video

●●● VIDEOFIED RIGHT NOW.

Control via your smartphone

●●● VIDEOFIED FOR YOURSELF.

Security, our expertise

VIDEOFIED has revolutionised the security market by offering the **first totally wireless** burglar alarm systems that can in a matter of seconds display their reason for tripping remotely.

Made in France quality

VIDEOFIED products are devised, manufactured and assembled in France.

outdoor and indoor protection

Detect and dissuade before the break-in!

Should there be an attempted break-in through a courtyard, terrace or garden, the Videofied outdoor cameras detect the burglars before they break down a door or shatter a window. The outdoor siren and its flashing light immediately play a dissuasive role.

Genuine protection of your property

The Videofied range gives you cutting-edge technology used by banks, jewellers and shopping centres. You are certain to protect your property effectively (apartment or house) at a competitive price. The streamlined design of our products blends them effortlessly into your internal decor.

Removing doubt instantaneous video

Streaming, a genuine «plus»

This is a Videofied exclusive: your property is made even more secure with the Video Live function. In an intrusion, the video is sent instantly to your monitoring station or your smartphone; you can see what is happening at home live at any time.

OSMVC Video Live camera

ISMV Video Live camera

Control via your smartphone

The new VIDEOFIED APP is used to run your alarm system, wherever you may be.

In **remote monitoring** mode, you can, among other things:

- check the arming status and arm or disarm the panel,
- access the events log,
- take photos or videos, store images to view them later,
- disarm the monitoring of a room temporarily, etc.

In **self-monitoring** mode, you also receive alerts on your smartphone live if there is an intrusion (via notification, e-mail, voice call and SMS).

Always connected

What is happening at home? Who is there? What are my children doing? The VIDEOFIED APP keeps you in constant visual contact with your family and everything that is important to you, simply from your smartphone or tablet!
